

FENCE REQUIREMENTS

Building Code

Building Permit required for fences 6 feet or more above grade.
Fences more than 8 feet above grade require engineered design.

Fences required for swimming pool enclosures shall be at least 4 feet above grade and provide a self-latching gate.

Wright County Ordinance

Fences may be constructed up to property line. The property line is a shared border and the entire fence must be located on subject property. Verify lot lines prior to construction.

Fences that block site lines, in any way, are not allowed closer to the shoreline than the setbacks of the principle structure.

Electrified and/or barbed fencing not allowed in residential zoning districts.

Fences for an animal enclosure may have a 100 foot setback or more.
Contact Tracy Janikula at 763-682-7334 for animal fencing questions.

Fences for required business, commercial or parking lot screening have additional zoning, setback and conditional use requirements.
Contact Scott Deckert at 763-682-2320.
